TERMS AND CONDITIONS FOR PETROLEUM PRODUCTS SALES AGREEMENT

Dated 1 February 2008

1. Application of Terms and Conditions for Sale of Marine Fuel

- (a) These General Terms and Conditions ("these General Terms and Conditions") are deemed incorporated in each Confirmation Note, Invoice, Bunker Delivery Note, Tank Measurement Form, Bunker Requisition Form and together with these General Terms and Conditions constitute a complete and exclusive Agreement of Sale of Marine Fuel ("the Agreement of Sale of Marine Fuel") between Chimbusco Pan Nation Petro-Chemical Co. Ltd ("the Seller") and the party as defined in the Confirmation Note ("the Buyer") whether it is made as principals, agents, brokers, authorized representative or otherwise.
- (b) Unless expressly accepted in writing by the Seller, terms and conditions by the Buyer and/or any other parties will not be binding on the Seller and that these General Terms and Conditions, including any revisions, shall prevail and be binding on the Buyer.
- (c) In the event of any discrepancy between these General Terms and Conditions and the terms of the Confirmation Note, the terms of the Confirmation Note shall prevail.

2. OFFERS AND QUOTATIONS

An Agreement of Sale of Marine Fuel would only be binding on the Seller upon the issuance of the Confirmation Note and not otherwise.

3. PRICE

- (a) All prices quoted are in U.S. Dollars and are exclusive of duties, taxes, barging, trucking, tariffs, wharfage fees, toll fees, import charges or other exaction on the amount equivalent thereto, now or hereafter imposed, levied, or assessed by any governmental authority upon, measured by, incident to or as a result of any transaction in connection with the transportation, importation, production, manufacture, use or ownership of the goods or source materials herein concerned. Any such amounts shall, if collectable or payable by the Seller, be paid or reimbursed by the Buyer on demand in addition to the prices otherwise quoted.
- (b) The price specified in the Confirmation Note shall only be valid for seven (7) calendar days, that is, three (3) days before and three (3) days after the ETA of the vessel designated by the Buyer to receive delivery of the Marine Fuel ("the Receiving Vessel").
- (c) The Seller has the right to re-adjust the price, to negotiate a new price or to revoke the Agreement of Sale of Marine Fuel if the quantity required changes or, if there is a change to the quality or specification or when the Receiving Vessel's anticipated arrival date is delayed beyond seven (7) calendar days - as stated in (b) hereinabove.

4. DELIVERY

- (a) Unless otherwise agreed by the Seller, the Buyer shall give the Seller at least seventy-two (72) hours notice of the delivery required.
- (b) At least 48-eight (48) hours (Sundays and holidays excepted) before the Buyer requires delivery of the Product as defined in the Confirmation Note, the Buyer shall provide and offer to the Seller, (i) the exact location of the Receiving Vessel designated by the Buyer, (ii) the approximate time of tendering, (iii) any other necessary information as per the Seller requests.
- (c) The obligation to delivery will only be binding on the Seller when the Buyer complied with its obligation in (a) and (b) above and not otherwise.
- (d) Once the Confirmation Note has been Issued, any changes or cancellation to delivery by the Buyer would entitle the Seller to charge including but not limited to barging and storage costs, and the price difference of the nominated quantity in parallel to the price frustration of the market between the date of confirmation and cancellation, at the sole discretion of the Seller without prejudice to any other rights, the Seller may have against the Buyer. The Buyer shall indemnify the Seller for any loss or damage suffered as a result of the alteration or cancellation.

5. QUANTITIES AND MEASUREMENTS

- (a) The quantity of Marine Fuel shall be those quantities specified in the Confirmation, subject to the availability of quantities and grades of such Marine Fuel on the date of delivery at the Delivery Location.

Quantity measured on Bunker Tanker is therefore considered as conclusive and binding to both the Buyer and the Seller.
- (c) The Buyer and the Seller shall both have the right to be present or represented at such measurements of Marine Fuel, and shall be given sufficient information and access to the relevant gauge or meter and relevant documentation to verify the quantities delivered. If the Buyer is not present or represented at such measurements, then the Seller's determination of quantities shall be conclusive and binding on the Buyer.
- (d) The Buyer shall be responsible to ensure that the bunker manifold of the Vessel into which the Marine Fuel is to be deposited is suitable in all respects and comply with all relevant regulations and is capable of accommodating the full quantity of Marine Fuel ordered by the Buyer.

6. SAMPLING

- (a) The Seller shall arrange for Four (4) representative samples of each grade of Marine Fuel, to be drawn throughout the transfer of such grade of Marine Fuel. The sampling shall where possible be performed in the presence of both the Seller and the Buyer or their respective representatives, provided that the absence of the Buyer or its representatives shall not prejudice the validity of the samples taken.
- (b) The samples shall be drawn at a point at the Seller's election.

- (c) The samples shall be drawn using a mutually accepted sampling device which shall be constructed, secured and sealed in such a way so as to prevent the sampling device and the sample being tampered with during the transfer of Marine Fuel to the Vessel's bunker manifold. If the Buyer does not express any request on sampling device, then the Seller's determination shall be conclusive and binding on the Buyer.
- (d) The Four (4) samples of Marine Fuel drawn shall be sealed and labeled indicating the Vessel's name, delivery facility, product name and date of sampling and signed by the Seller's representative and the Master of the Vessel or its authorized representative. The samples with seal number marked on BDN are considered as the only valid trading samples.

- (f) If the Marine Fuel is delivered by more than one Bunker Tanker, the sampling procedure shall be repeated as outlined in this Clause 6.
- (g) The samples stated above shall be conclusively deemed to be representative of the quality of the Products supplied to the Vessel. Any samples drawn from the Vessel's tanks shall not be valid as an indicator of the quality supplied.

7 DELIVERY TERMS

- (a) Wherever logical in connection with vessel operations or performance under the Agreement of Sale of Marine Fuel the Receiving Vessel also includes the Receiving Vessel's owner(s), operator(s), captain or master, pilot(s), tankermen, other officers, and crew, line handlers and agents.
